Measurement approaches
informal economics 12:51–52
underground economics 12:51–52
Measurement devices, in experimental laboratories 8:557–558
Measurement dimensions, of effectiveness factors 7:220–221
Measurement equation 24:354
Measurement error
in EITMs 18:456, 18:458
extreme response style 23:758–759
latent variables 13:396
scientific explanations 21:306
in sexuality surveys 15:315–316
Measurement error models 14:850–855
effect of 14:851
estimation in 14:852–853
multiple linear regression 14:852
nonlinear models and 14:854
related methods 14:853–854
factor analysis 14:853
regression calibration 14:853–854
regression with instrumental variables 14:853
simple linear regression 14:850–852
simple simulated example 14:851–852
Measurement invariance 19:420
Measurement issues, temperament development 24:195
Measurement model 19:419, 23:406
Measurement of engagement 1:31–32
observational measures 1:32
self-report measures 1:32
Measurement of work and free time 13:845–846
Measurement precision 19:419–420
Measurement scales, Stevens on 23:454–455
Measurement theories
conjoint 14:862–864
conjoint measurement 14:870
degree 14:868–870
derived measurement 14:869–870
and development of quantitative physics 14:868–870
extensive magnitudes and real numbers 14:868
intensive magnitudes and concept of continuous quantity 14:868–870
measurement of psychological attributes 14:870
fundamental measurement 14:869–870
history and philosophy 14:868–872
and issues external to quantitative science 14:870–871
philosophy of mathematics 14:870–871
philosophy of science 14:871
mathematical psychology 14:804–805, 14:814–815
operationism 14:871
ratio 14:868, 14:870–871
representationism 14:870–871
Measurement unit 5:323–324
Measurement unit equivalence 5:319–320
Measurements 3:785, 3:819, 20:239
child and adolescent psychiatry 3:388
in econometrics 7:8–10
of facial expression production 8:669–670
frequency, cardiovascular reactivity 3:119
income 11:739–741
income distribution 11:732–738
inequality 11:732–738
issues of single-case designs 21:985
on job satisfaction 12:833–834
performance 25:592–593
purpose 24:98
quantification 19:700–704
reliability 20:239–246
representational theory of 14:856–861
self-report scales 25:592
source 24:98–99
customers 24:98–99
objective sources 24:98–99
supervisors 24:98–99
team members 24:98–99
trained raters 24:98–99
of subjective well-being 23:648–649
teacher motivation 24:66, 24:69
timing 24:99
Tversky on 24:680
of uncertainty 23:424
validation 24:99
construct validity 24:99
content validity 24:99
criterion-related validity 24:99
validity 20:239–246
Measures of affirmative action 1:248–250
indirectly inclusionary measures 1:249
'outreach' programs 1:249
positive measures to avoid unlawful discrimination 1:248–249
preferential treatment 1:249–250
tie-break policies 1:249
training underrepresented group 1:249
Measures of potential for prevention, epidemiology 7:830
Measuring faking 17:836–837

anchoring vignettes 17:837
Bayesian truth serum 17:837
decision trees 17:837
item response theory (IRT)-based approaches 17:837
overclaiming 17:837
social desirability scales 17:836–837
word use 17:837
Measuring innovation 12:149
Measuring skills 7:215–216
Measuring slavery 22:46–48
Meatless Mondays campaign 1:568
Mecelle-i Ahkam-i Adliye (Ottoman civil code) 15:361
Mechanical computers 23:376–377
Mechanical energy 7:626
Mechanical Jurisprudence 13:773
Mechanical Marxism 18:363–364
Mechanical model of universe 20:286
Mechanical objectivity, tools of 19:702–703
Mechanical philosophies 20:286
Mechanical problem solving 1:878
Mechanical social solidarity 4:361–362
Mechanical solidarity 4:338–339, 6:701–702, 13:162, 18:668, 23:3, 23:6
Mechanical Turk, experimental laboratories 8:554
Mechanism of action, of antidepressants 1:779–780
Mechanism of missing data 15:602–603
Mechanism operationalization, Empirical Implications of Theoretical Models 18:455
Mechanism-based causal analysis 14:873–879
Mechanism-based explanation 1:670–671, 22:415–417
in analytical sociology 1:668–672
Mechanism-based thinking, macro/microsociologies 14:417–419
Mechanisms 3:269, 14:875–877
of kin selection 13:29–30
Mechanistic explanation 14:873–874
Mechanization 2:906, 6:32
of manufacturing 11:855, 11:858
of reasoning 5:939
MECHEM (scientific discovery model) 21:295
Medals 2:333–335
Med-arb 15:70
Medecins Sans Frontieres (MSF) 19:533, 25:433
Media 5:704, 11:121, 11:393, 11:396, 11:398, 17:711, 21:682
and aggression 1:378
audiences 2:216–222
and body image 2:736–740
and celebrity 3:277
and child development 15:1–10
ADHD-related behaviors 15:4–5
adolescence 15:3
aggressive behavior 15:4
core subject knowledge 15:7
creativity and imagination 15:7
early childhood 15:2
infants and toddlers 15:1–2
Internet 15:3, 15:5
materialism, parent–child conflict, and childhood overweight 15:5–6
middle childhood 15:2–3
negative effects 15:4–6
positive effects 15:6–7
prosocial behavior 15:6
school readiness 15:6–7
sexual socialization and sexual risk behavior 15:5
television 15:1–8
video games 15:1–8
in China 2:68–69
and climate change 3:853–859
agenda-setting approach 3:858
anthropogenic climate change as a global problem 3:854
behavioral effects 3:858
climate change as relevant media issue worldwide 3:856
climate journalists 3:855–856
climate politics 3:853, 3:856
content analysis 3:856–858
coverage from science of climate change to its societal impacts 3:856–858
difference in content of climate change coverage 3:858
ecological modernization 3:855
economic development 3:854–855
environment 3:855
event-driven media coverage 3:856
frames and sponsors 3:855t
global warming 3:854–855
Internet 3:853, 3:858
knowledge about climate change 3:858
media attention for climate change 3:857f
public sphere 3:854
relevance 3:853
representations 3:856–858
research field 3:853–854
scientific uncertainty 3:854
sources for climate change information 3:858
stakeholder communication 3:854–855
uses and effects 3:858
collective memory 4:183–186
communication and transportation 4:273–276
and community 4:332–336
community attachment model 4:332–333
geographically based online communities 4:335–336
local community 4:332–333
online newspapers 4:333
print newspapers 4:333
virtual communities 4:333–335
consumption 16:785
and crime 15:23–28
and cultural production 5:611
educational 15:36
effects on infant development 15:35
effects on political efficacy 7:303–304
and genetics 9:990–993
in Gulf War 25:399
influence on East Asian politics 6:798, 6:801–802
information society 12:83–86, 12:88
integration of economic education teaching methods and 24:84–86
and international advertising 12:460
and interviewing 12:672
in Korea 2:75
and manifestos 18:417–418

Response cost, behavior therapy 2:429
Response dimensions 23:765
Response efficacy, health behavior 10:577–578
Response error 16:920–921
audience measurement 2:213–214
avoiding 16:920

Response error (*continued*)
definition 16:920
randomized response techniques for sensitive questions 16:920–921
in sexuality surveys 15:315–316
Response facilitation effect 2:180
Response facilitation measures of implicit attitudes 2:180
Response formatting 19:772, 22:17–18
Response instructions of situational judgement test 22:15
Response order effects, questionnaires 19:772
Response perspective on psychological stress 23:584
Response prevention, exposure therapies 8:606–607
Response selectivity, developmental neuroscience 16:601–602
Response sensitization 10:481
Response speed 4:11
Response styles 11:454, 23:758
extreme response style 23:758–763
latent class representations of 23:760
Response surface methodology (RSM) 23:476
Response time (RT) 19:474, 24:640
distributions 6:399–400
quantile probability plot of 6:399–400
shape 6:399
error response times 6:399
mathematical psychology 14:810–811, 14:814–815
random utility models 5:901–905
Response time (RT) measures of implicit attitudes 2:180–181
Response time (RT) models
mathematical psychology 14:805
Response to intervention 21:114, 23:216
Response variable, regression analysis 14:157–161
Response-based sampling *see* Outcome-based sampling
Responses 6:479, 14:367
cardiac defense 23:541
of children to divorce 14:520–521
goal-oriented behavioral 10:271
and natural disasters 16:316–318
questionnaires
alternatives 19:771–772, 19:774–775
editing 19:772
formatting 19:772
survey questions
categories 23:767–768
dimension 23:765–766
Responsibilities redistribution, for access to justice 12:923–924
Responsibility 10:628, 10:630–631
Butler on 3:56–59
concept 20:587–588
and conscientiousness 4:659
definition 20:581
and deserts 6:231–232
in fatherhood 8:841
liberalism and 14:23–24
moral 9:406–408
philosophical aspects 20:587–591
as accountability 20:589–590
as attribution 20:589
blameworthiness 20:587–590
case studies 20:590
causal determinism and moral responsibility 20:590
causal responsibility 20:587
conditions for responsible agency 20:588–589
control conditions 20:588–590
duty and obligation 20:587–588
epistemic competence 20:589
extreme evil 20:590
and free will 20:590
holding responsible and being responsible 20:589
liability 20:589
moral community 20:587–588, 20:590
private moral features 20:590
as susceptibility to reactive attitudes 20:589
politics of 15:536–537
and public interest 19:552–553
of scientists and science 20:524–526
in social work 20:581–586
blame 20:581–582
collective 20:583
duty 20:581–582
